Summary

Web Developer with experience in building high-performance eCommerce and business websites. Skilled in BigCommerce and strong frontend fundamentals, currently focused on transitioning into WordPress and Shopify development. Experienced in responsive design, UI development, and performance optimization with the ability to deliver scalable, user-friendly web solutions.

Professional Experience

Front-End Developer

Dit Interactive Pvt Ltd, Ahmedabad

September 2023 - Present

- Handled multiple web and eCommerce projects from development to deployment.
- Developed and customized BigCommerce themes including custom builds and Cornerstone-based implementations.
- Built and maintained WordPress websites for service-based projects using Elementor, WPBakery, and ACF.
- Created high-converting landing pages with responsive design and optimized user experience.
- Converted custom UI/UX designs into fully functional, responsive websites while maintaining branding consistency.
- Built dynamic homepage, product, and category page layouts with interactive UI components.
- Implemented JavaScript features such as cart enhancements, product comparison, filtering, and dynamic elements.
- Improved navigation with mega menus and mobile-optimized structures.
- Maintained in-house and client websites, handling updates, bug fixes, and performance improvements.
- Optimized website performance and ensured cross-browser compatibility across devices.
